

Apply CleanGreen® C4 by ground or air.

For ground application spray at a rate of 16 ounces per acre in a 5-10gal mix.

Aerial Apply at a rate of 12oz per acre in a 2gal mix.

Warning: Do not mix stronger than 20:1. Can be harmful to growing crop.

Our low application rates make CleanGreen® C4 easy to ship and handle and very cost effective too! It can safely be combined with all types of herbicide, pesticide, and fertilizer products.

High priced chemical and crop input costs can be offset by including C4 in your farming program.

Plant Health

By way of C4's delivery and availability of its nutrients, plant response to C4 has been phenomenal. C4 treated plants thrive and flourish with a level of health rarely seen. Our crops have a strength and health to them that make you think they are inside a greenhouse being cared for by hand.

Stronger Plant Resistance to Drought, Frost, Hail type Shock!

Higher Plant Brix Levels!

Less Fungus Problems!

Better Plant Health!

Increased Microbial Activity!

Stimulates Amino Acid and Protein Production in the Plant!

C4 treated crops produce huge yields.

C4 is a powerful foliar concentrate that turns up the plants immune system. It puts the plant into high gear to accelerate growth and enhance overall plant health. It has proven itself to be a game changer when it comes to how we traditionally view plant fertility.

Revolutionary Delivery System

A significant reason why C4 works so well is its delivery system. C4 penetrates through the wax layer of the plant leaf in a highly efficient way ensuring all the nutrients are received internally by the plant.

Availability

C4 was engineered to maintain high availability of its proprietary ingredients to the plant. Availability is key. The nutrients in C4 are 100% available and perfectly balanced to ensure uniform delivery to the plant. With C4 you quite simply get the best product your money can buy!

Safe to Use With All Types of Herbicide, Pesticide, and Fertilizer Products!

Bigger and Better Yields!

Less Insect Problems!

Increases Herbicide Absorption!

Improved Photosynthesis!

Only Need to Use 12-16 Ounces Per Acre!
